## Validation: Splitting and Batching

### 1. Long Paragraph Splitting Test

The following paragraph is over 3000 characters long. It contains a bold section around the 2000-character mark.

Notion has a 2000-character limit per text block. This test verifies that the content is split correctly and the bold text is preserved (or at least readable).

### 2. Batching Test (150 blocks)

The following list contains 150 items. Notion API allows max 100 children per request.

This test verifies that the library correctly batches these into multiple requests.

- Batch Item 1: This is a list item to test the 100-block batching limit.
- Batch Item 2: This is a list item to test the 100-block batching limit.
- Batch Item 3: This is a list item to test the 100-block batching limit.
- Batch Item 4: This is a list item to test the 100-block batching limit.
- Batch Item 5: This is a list item to test the 100-block batching limit.
- Batch Item 6: This is a list item to test the 100-block batching limit.
- Batch Item 7: This is a list item to test the 100-block batching limit.
- Batch Item 8: This is a list item to test the 100-block batching limit.
- Batch Item 9: This is a list item to test the 100-block batching limit.
- Batch Item 10: This is a list item to test the 100-block batching limit.
- Batch Item 11: This is a list item to test the 100-block batching limit.
- Batch Item 12: This is a list item to test the 100-block batching limit.
- Batch Item 13: This is a list item to test the 100-block batching limit.
- Batch Item 14: This is a list item to test the 100-block batching limit.
- Batch Item 15: This is a list item to test the 100-block batching limit.
- Batch Item 16: This is a list item to test the 100-block batching limit.
- Batch Item 17: This is a list item to test the 100-block batching limit.
- Batch Item 18: This is a list item to test the 100-block batching limit.
- Batch Item 19: This is a list item to test the 100-block batching limit.
- Batch Item 20: This is a list item to test the 100-block batching limit.
- Batch Item 21: This is a list item to test the 100-block batching limit.
- Batch Item 22: This is a list item to test the 100-block batching limit.

- Batch Item 137: This is a list item to test the 100-block batching limit.
- Batch Item 138: This is a list item to test the 100-block batching limit.
- Batch Item 139: This is a list item to test the 100-block batching limit.
- Batch Item 140: This is a list item to test the 100-block batching limit.
- Batch Item 141: This is a list item to test the 100-block batching limit.
- Batch Item 142: This is a list item to test the 100-block batching limit.
- Batch Item 143: This is a list item to test the 100-block batching limit.
- Batch Item 144: This is a list item to test the 100-block batching limit.
- Batch Item 145: This is a list item to test the 100-block batching limit.
- Batch Item 146: This is a list item to test the 100-block batching limit.
- Batch Item 147: This is a list item to test the 100-block batching limit.
- Batch Item 148: This is a list item to test the 100-block batching limit.
- Batch Item 149: This is a list item to test the 100-block batching limit.
- Batch Item 150: This is a list item to test the 100-block batching limit.

### 3. End of Test
